

THE ARMY BATTLE LAB

PRESENTS...

FIGHT TONIGHT

SURVIVABILITY

THE ENEMY IS HUNTING YOU - WILL YOU BE EASY PREY?

DETECTION

Being 'seen' is not just visual -
The enemy can pinpoint radio and
mobile phones in 10 - 15 minutes

CAMOUFLAGE

Use camouflage to counter
the surveillance threat -
Without thermal camouflage
you can still be seen
under the net

PROTECTION

Wear your PPE -
If you halt, dig a shallow scrape

CONCEALMENT

Use your thermal camouflage -
Augment with natural foliage
when possible

DISPERSION

Spread out to limit impact of
enemy fire missions -
Minimise vehicle packet
sizes when moving -
Spread out when static

DECEPTION

Construct dummy vehicles and
equipment with battlefield debris -
Black bin bags heat up in sunlight and
provide a thermal signature
